MediaSpace Empower Your Users with Video Capabilities Anywhere on Any Device

 **MediaSpace**TM
by Kaltura

Desktop Web-Browsers

Web-based portal for video consumption and creation on any web-browser

Mobile Web-Browsers

Optimized mobile web experience across devices with Responsive Design* and HTML5

New!

Native Mobile App*

Powerful native video experience and unique mobile video capabilities

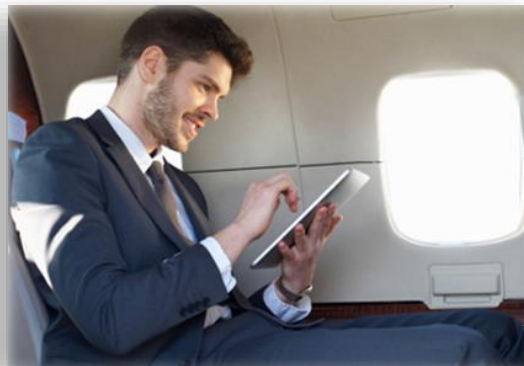

* Supported in Kaltura MediaSpace 5.0 and later versions

What Can the Mobile App Do for Your Organization?

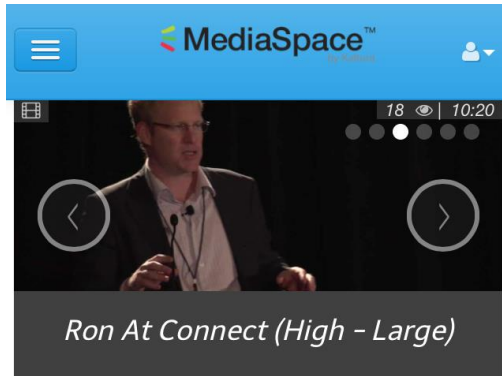

Enterprise

- Enable employees to watch training or product videos during their commute (train, airplane, etc.) or while at an offsite
- Enable your Sales team to access sales videos during Sales discussions even when internet is slow/unavailable (e.g. conferences, remote off-sites, etc.)
- Enable employees to broadcast live video while on-the-go (e.g. report from a convention or a company event)
- Allow employees to capture and share video/audio from meetings, interviews, etc.
- Secure with DRM highly confidential and IP protected video content that can be consumed via mobile device

Home

Recently Added

MediaSpace enables community, collaboration and social activities by leveraging the power of online video. In the past, single administrators or small teams within the organization would publish to a large audience; MediaSpace revolutionizes this process by enabling democratization of media creation with many contributors, moderators and viewers in a multitude of channels

The MediaSpace Mobile App extends these capabilities by empowering your team to upload, browse and view content either online or offline anywhere, on any device.

Editing Media

The image shows a mobile app interface for editing media. At the top is a blue header bar with a back arrow, a menu icon, the 'MediaSpace by Kaltura' logo, and a user profile icon. Below the header is a 'Details' tab and a red 'Delete' button. The 'Name' field is labeled 'Name: (Required)' and contains the text 'capturedvideo'. The 'Description' field is labeled 'Description:' and is a large text area with the placeholder text 'Description'. The 'Tags' field is labeled 'Tags:' and is an empty text area. At the bottom are two buttons: 'Save' and 'Go To Media'.
