About the Screenshots

The Kaltura Video App for Canvas version 1.0 implements a responsive web design for optimal user experience across all devices. The user interface displays differently on different devices and available screen sizes.

The screenshots in this guide were taken on a desktop computer, and the user interface may differ somewhat on different devices. The functionality remains the same.

Overview of the Kaltura Video App for Canvas

Kaltura has partnered with Canvas to offer an out-of-the-box extension that enables you to view, record, upload, publish, search, and share video directly from your Canvas environment. This translates into time and money saved for your organization, improved student engagement, creativity and learning results, as well as ease of use for students, faculty and teaching assistants.

Main Features and Tools

Upload and Record

- **Easy Video Uploading** - Upload any type of media (video, audio, images) using a simple interface.
- **Create webcam videos** - Welcome messages, introductions, assignment instructions, simple demonstrations, and other webcam media.
- **Screen Recording** – Easily record the screen, along with audio and webcam feeds, to create and publish screencasts. Instructors and students can record and share lectures, presentations, software tutorials, and additional screencasts.

Organize and Share

- **My Media** – Upload, manage, assign, and share content (based on permissions) with a private media library for each Canvas user.
- **Course Gallery** – Search or view rich media assigned to a course if you are a member. Media can be added by instructors or students, with an option for student contributions moderation by instructors.
- **Rich-text editor integration:** Intuitively use rich media without time-consuming training, simply click on the “Embed Kaltura Media” link from within any rich-text editor in Canvas.

View and Interact

- **The Kaltura Player:**
 - Customize the player - functionality, features and display.
 - Configure once use everywhere - mobile, tablet, PC, TV.
 - Open Standards, Open Source.
 - Files are transcoded for Web, HD, or Mobile Delivery across various devices and platforms. Player auto detects device and platform and adjusts the playback using adaptive bitrate technology.
 - Playback supporting both Flash and HTML5 for mobile, with automated fall back.
 - Accessibility - Supports playback with ADA/508 compliant player.
- **Responsive Design:** Automatically adjusts site layout to the screen size and device to provide optimal mobile device support.
- **Captions** - Upload multi-lingual captions to reach international, multi-lingual, and hearing-impaired audiences while also enabling in-video search within the captions.

- **Comments** - Boost online conversations and user engagement by allowing users to comment on videos.
- **Search** - Quickly find videos based on metadata (name, description, tags, categories)
- **In-video search** – Upload captions and then search for every spoken word. Search results allow skipping directly to the relevant part in the video. In-video search available within an entry or across videos in the course gallery/my media gallery.

SECTION 2

Interacting with Media

In My Media and in Media Galleries, you can do the following:

- [Filter the content](#)
- [Sort the content](#)
- [View content](#)
- [Comment on media](#)
- [Search media and captions](#)

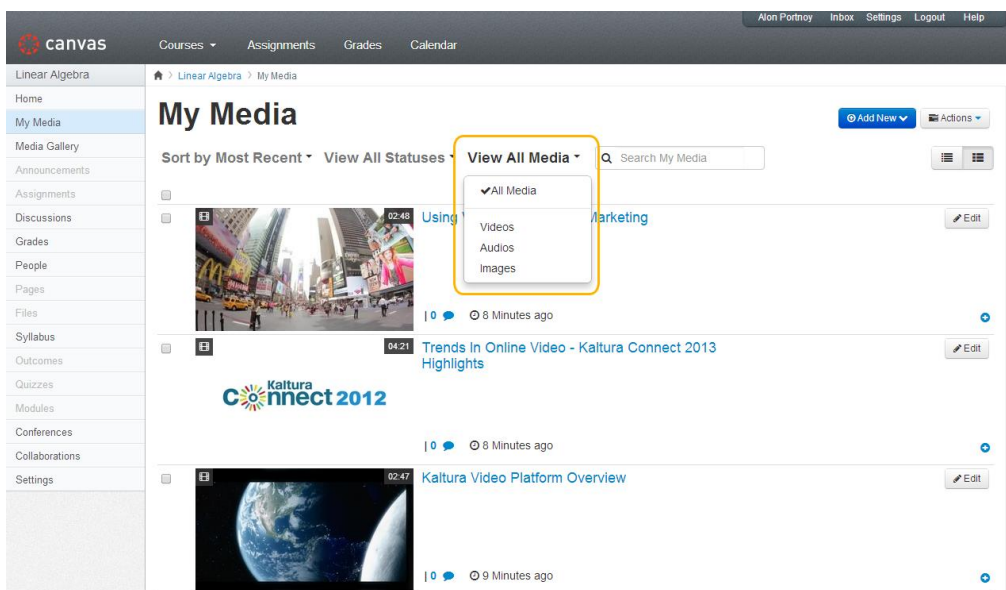

NOTE: My Media and Media Gallery are accessible in a course from the left-pane navigation menu. Your Canvas instance may not have My Media or Media Gallery available if it was disabled by your instructor or system administrator.

Displaying and Viewing Content

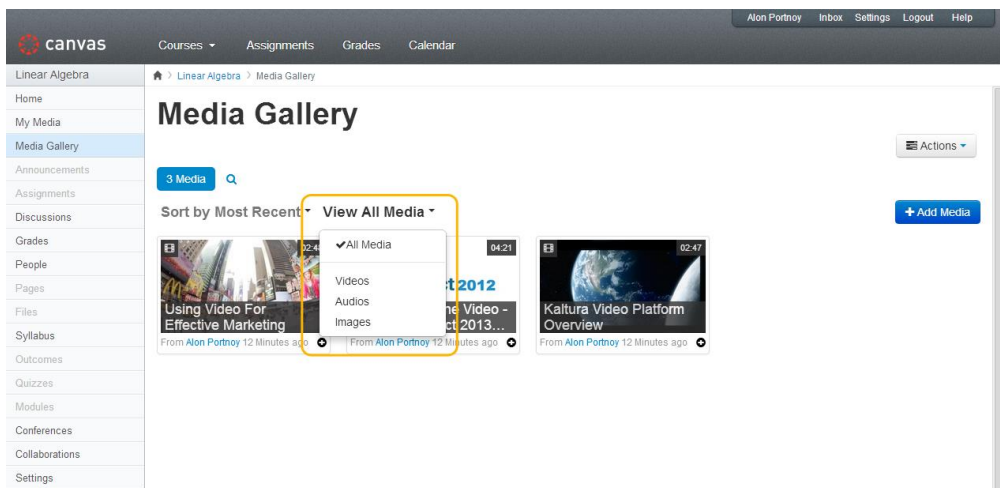

To filter content

In My Media and in Media Gallery, select an option from the View All Media drop down menu:

- All Media types (videos, audio, and images)
- Videos
- Audios
- Images

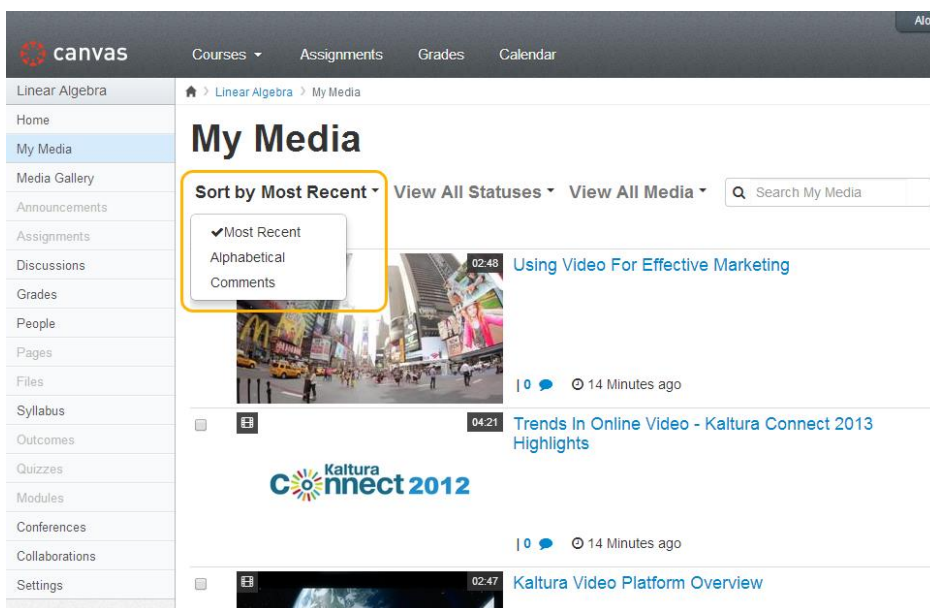

Interacting with Media

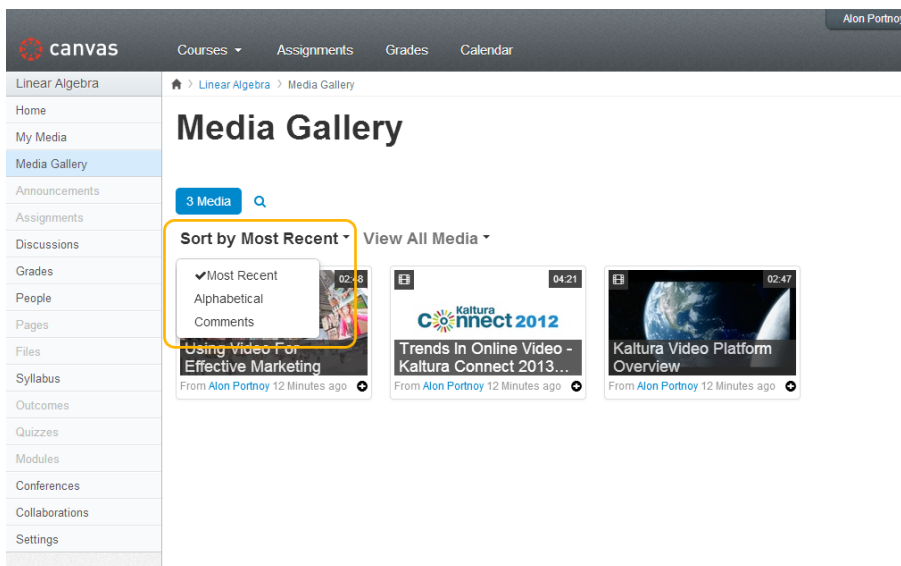

To sort content

In a My Media or in a Media Gallery, click on one of the following:

- Most Recent
- Alphabetical
- Comments

To view content

1. In My Media or Media Gallery, browse to the media entry and click the thumbnail or the title of the content.
2. Click Play in the media player. You can use options such as volume control, caption selection and full screen.

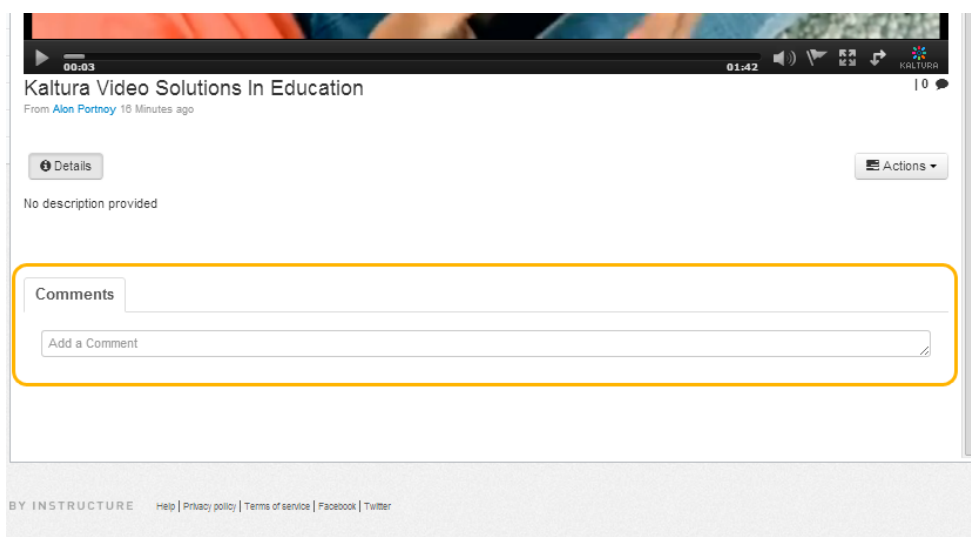

NOTE: On an iOS device, a built-in iOS media player is used to play the media.

Commenting on Media

You can comment on media, view comments by other users, reply to existing comments, and delete comments and replies.

To comment on a media item

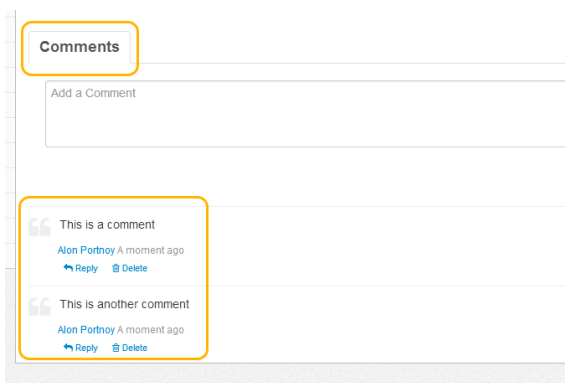

1. Click a media thumbnail or title.
2. In the Comments tab under the media player, enter a comment in the Add a Comment field and click **Add**.

Your comment is displayed in the Comments tab.

To display comments

1. Click a media thumbnail or title.
2. If comments were entered, they are displayed in the Comments area under the media metadata.
3. When a limited number of comments are displayed, click **Load more comments** to display additional comments.

To reply to a comment

1. Click a media thumbnail or title.
2. In the Comments tab under the media player, hover over a comment and click **Reply**.
3. In the Add a Comment field, enter a reply and click **Add**. Your reply is displayed under the comment.

To delete a comment or reply

NOTE: You can delete a comment or reply only in the following cases:

- You added the comment or reply.
- You are the media owner.

1. Click a media thumbnail or title.
2. In the Comments tab under the media player, hover over a comment or reply and click **Delete**.
3. Click **Yes** to confirm the deletion.

NOTE: Deleting a comment also deletes replies to the comment.

Searching Media and Captions

You can search:

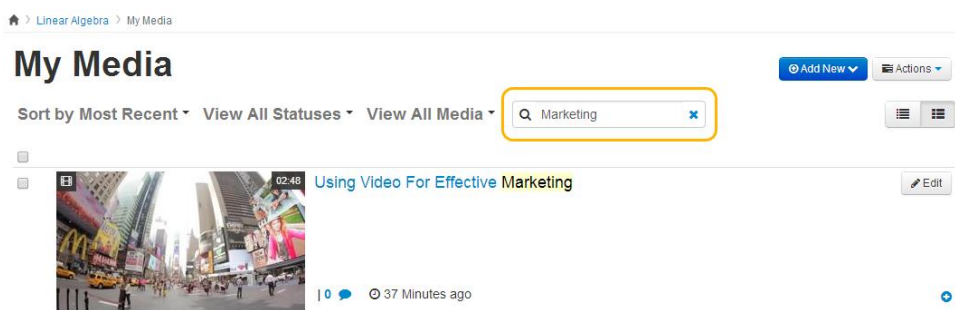

- [All media based on metadata](#)
- [Captions in a single video](#)

Searching for Media Based on Metadata

The ability to search metadata and captions is available by entering a search term that you are looking for. The results for metadata are returned by default. The Search feature filters the search string and enables you to search on captions and within metadata in the Media Galleries. You can toggle between the different objects after you enter the search term.

To search in a Media Gallery or in My Media

1. On the Media Gallery or My Media, enter a search string (such as a tag or part of a title) in the Search field. Media with metadata that includes the text is displayed.

2. To clear the search text, click the clear X icon

3. In Media Galleries you can toggle between search results in metadata and in captions by clicking on Media or Search in Video respectively.

Disabling and Closing Comments

For each of your media items, you can:

- [Disable the comment feature.](#)
- [Prevent additional comments.](#)

To disable comments on a media item

1. On your My Media page click **Edit** for the video you want to edit.

2. Select the **Options** tab and select the **Disable comments for this media** checkbox.

The screenshot shows a video player interface with a progress bar at 00:00 / 02:48. Below the player are three tabs: 'Details', 'Options', and 'Captions'. The 'Options' tab is selected. Under the 'Comments' section, there are two checkboxes. The first checkbox, 'Disable comments for this media', is checked and highlighted with a yellow box. The second checkbox, 'Close discussion (do not allow new comments)', is unchecked. At the bottom, there is a blue 'Save' button and a link 'Go to media page'.

NOTE: Comments that were entered before you disable the comment feature are re-displayed if you re-enable comments.

To prevent additional comments on a media item

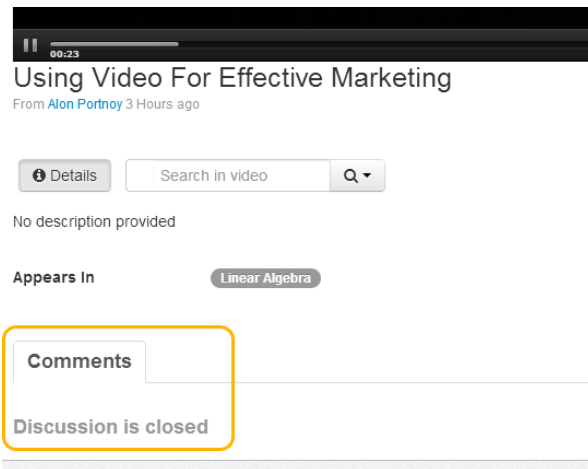

1. On your My Media page click **Edit** next to the video you want to edit.
2. Open the Options tab and select the **Close discussion** checkbox.

The screenshot shows the same video player interface as before. The 'Options' tab is still selected. Under the 'Comments' section, the first checkbox 'Disable comments for this media' is now unchecked, and the second checkbox 'Close discussion (do not allow new comments)' is checked and highlighted with a yellow box. The 'Save' button remains highlighted.

On the Comments tab of the media page, *Discussion is closed* is displayed and the “Add a Comment” text box is not displayed.

Managing Your Media

Managing a Media Gallery

By default, users with Teacher role in a Canvas course can manage the course Media Gallery. As the manager, you can perform actions that other users enrolled to the course cannot.

These actions include:

- Configuring settings and setting the description for the Media Gallery
- Moderating the content added to the Media Gallery
- Removing content from the Media Gallery
- Access the Media Gallery Analytics page

NOTE: By default a Teaching Assistant in Canvas is a Media Gallery moderator and can moderate content added to the Media Gallery.

All users enrolled to the course can:

- View approved content
- Browse and search the Media Gallery
- Add Media (pending the instructor's moderation)
- Remove media they have added

To edit a Media Gallery configuration and metadata (available to Course Instructors)

1. In the Media Gallery, select **Edit** from the **Actions** drop down menu.
