We don't on activities and events around us precisely what we are just by being alive.

What is the most astounding fact you can share with us about the universe. The most astounding fact the most astounding fact is the knowledge that the atoms that comprise life on Earth the atoms that make up the human body are traceable to the crucible that cooked right elements in there under extreme temperatures and pressures.

These stars are high mass ones among them went unstable in their later years. They collapsed and then exploded gathering there in rich guts across the galaxy got made of carbon. Thank you oxygen and all the fundamental ingredients of life itself. These ingredients become part of gas clouds that and then collapse form the next generation of solar system stars with orbiting planets and those planets now have committees for life so that when I look up at the night sky and I know that yes we are part of this universe we are in this universe but perhaps more important than both of those facts is that the universe is in us.

When I reflect on that fact I look up. Many people feel small because they're small in the universe is big. I feel this is because my atoms came from those stars. There's a level of connectivity between what you want in life and to feel connected to feel relevant but to feel like a participant.

We don't on activities and events around us precisely what we are just by being alive.

Overview

▸ Interactive transcript

▸ Search within video (all matches highlighted within transcript)

▸ Dropdown of media data topics

▸ Dropdown of media data keywords (click to play)

▸ Speaker identification (click to play directly at speaker)

▸ Social share (share the playhead at any point in the video)

Features

▸ Transcript is time stamped and synchronized to the video frame.

▸ Displays media intelligence, keywords and entities.

▸ Multi language support for native captions and foreign language subtitles.

▸ Content search with heat map including, words, topics, keywords, and entities.

▸ Search videos with multiple speakers with time stamps.

▸ Complete customization settings like social sharing, transcript download and more.

▸ Download and print transcripts including speakers and time stamps.
